

REMARKS

The June 26, 2003 Communication states that applicants' March 29, 2002 reply was not fully responsive because of failure to comply with the sequence rules. The Communication further lists a number of formatting errors found in the sequence listing included in that reply which, according to the Communication, renders the computer readable form of the sequence unreadable.

Applicants understand that they must provide (a) a substitute computer readable form (CRF) of the sequence listing, (b) a paper copy of the substitute sequence listing and an amendment directing its entry into the application, and (c) a statement that the content of the sequence information recorded in computer readable form is identical to that of the paper sequence listing and, where applicable, includes no new matter, as required by 37 C.F.R. §§ 1.821(e), 1.821(f), 1.821(g), 1.825(b), or 1.825(d).

In response, applicants submit (a) a paper copy of the Sequence Listing attached hereto as **Exhibit B**, (b) a CRF of the sequence listing (provided herewith as **Exhibit C**), and (c) a statement in accordance with 37 C.F.R. §1.821(f) attached hereto as **Exhibit D**, certifying that (i) the CRF and written sequence listing contain the same sequence information, and (ii) the sequence listing contains no new matter.

If a telephone interview would be of assistance in advancing prosecution of the subject application, applicants' undersigned attorneys invite the Examiner to telephone them at the number provided below.

Applicants: William Olson and Paul Maddon
Serial No.: 09/464,902
Filed: December 16, 1999
